

Field Ecology trip Mohelno 2025

Date: **14–19 September 2025**

Course name: Field Ecology (**KBO/192E**)

Teachers: Jan Šuspa Lepš, Petr Blažek and Kryštof Korejs

Destination: The surroundings of Mohelno (famous serpentine steppe, canyons of Jihlava and Oslava rivers, and hillocks between them)

Accommodation: Tourist base [Skřípina](#)

Course content: Field trips focused on exploring the landscape with its diverse plants, animals and biotopes. Group student projects focused on plant and animal ecology. Project results will be presented at an informal seminar in the autumn.

The course runs alongside the Czech version, offering a nice mix of local and international students.

Please, register for KBO/192E in STAG if interested. Registered students will receive more information in late summer via their university email (if you do not check it regularly, please also send us your private email).

Contact: blazek@prf.jcu.cz

Looking forward to seeing you in the field

Jan Šuspa Lepš, Petr Blažek and Kryštof Korejs
