Výběr ze světové bryologické literatury [Selection from the world bryological literature]

- Aleffi M. (2008): *Biologia ed ecologia delle briofite*. – Antonio Delfino Editore, Roma. [xii+434 pp.]
- Aničić M., Tasić M., Frontasyeva M. V., Tomašević M., Rajšić S., Mijić Z. & Popović A. (2009): Active moss biomonitoring of trace elements with *Sphagnum girgensohnii* moss bags in relation to atmospheric bulk deposition in Belgrade, Serbia. – *Environmental Pollution* 157: 673–679.
- Aničić M., Tasić M., Frontasyeva M. V., Tomašević M., Rajšić S., Strelkova L. P., Popović A. & Steinnes E. (2009): Active biomonitoring with wet and dry moss: a case study in an urban area. – *Environmental Chemistry Letters* 7: 55–60.
- Anterola A., Shanle E., Mansouri K., Schuette S. & Renzaglia K. (2009): Gibberellin precursor is involved in spore germination in the moss *Physcomitrella patens*. – *Planta* 229: 1003–1007.
- Ariyanti N. S., Bos M. M., Kartawinata K., Tjitrosoedirdjo S. S., Guhardja E. & Gradstein S. R. (2008): Bryophytes on tree trunks in natural forests, selectively logged forests and cacao agroforests in Central Sulawesi, Indonesia. – *Biological Conservation* 141: 2516–2527.
- Arróniz-Crespo M., Leake J. R., Horton P. & Phoenix G. K. (2008): Bryophyte physiological responses to, and recovery from, long-term nitrogen deposition and phosphorus fertilisation in acidic grassland. – *New Phytologist* 180: 864–874.
- Asakawa Y. (2008): Liverworts – potential source of medicinal compounds. – *Current Pharmaceutical Design* 14: 3067–3088.
- Asakawa Y., Ludwiczuk A., Nagashima F., Toyota M., Hashimoto T., Tori M., Fukuyama Y. & Harinantenaina L. (2009): Bryophytes: bio- and chemical diversity, bioactivity and chemosystematics. – *Heterocycles* 77: 99–150.
- Atwood J. J. (2009): A taxonomic revision of *Schlotheimia* subg. *Stegotheca* (*Orthotrichaceae*). – *Bryologist* 112: 290–300.
- Bacaro G., Rocchini D., Bonini I., Marignani M., Maccherini S. & Chiarucci A. (2008): The role of regional and local scale predictors for plant species richness in Mediterranean forests. – *Plant Biosystems* 142: 630–642.
- Bach L. H., Frostegård Å. & Ohlson M. (2009): Site identity and moss species as determinants of soil microbial community structure in Norway spruce forests across three vegetation zones. – *Plant and Soil* 318: 81–91.
- Banner A. & LePage P. (2008): Long-term recovery of vegetation communities after harvesting in the coastal temperate rainforests of northern British Columbia. – *Canadian Journal of Forest Research – Revue Canadienne De Recherche Forestière* 38: 3098–3111.
- Bartholomew-Began S. E. (2009): Juvenile gametophyte development in the *Blasiales*. 3. Sporeling ontogeny of *Cavicularia densa*. – *Bryologist* 112: 354–358.
- Basile A., Sorbo S., Bassi P., Napolitano E., Cogoni A. E. & Cobianchi R. C. (2008): Effects of heavy metals on protonemal development and ultrastructure in populations of the moss *Funaria hygrometrica* Hedw. (*Bryophyta*) from a mine and an unpolluted site. – *Fresenius Environmental Bulletin* 17: 1956–1963.
- Bates J. W., Wibbelmann M. H., Proctor M. C.F. (2009): Salinity responses of halophytic and non-halophytic bryophytes determined by chlorophyll fluorometry. – *Journal of Bryology* 31:
- Beever J. E. & Fife A. J. (2008): *Hypnobartlettia fontana* is an environmental form of *Cratoneuropsis relaxa* (*Bryophyte: Amblystegiaceae*). – *New Zealand Journal of Botany* 46: 341–345.
- Benavides J. C. & Sastre-De Jesús I. (2009): Digitized images provide more accuracy and efficiency to estimate bryophyte cover. – *Bryologist* 112: 12–18.

- Bengtsson B. O. & Cronberg N. (2009): The effective size of bryophyte populations. – *Journal of Theoretical Biology* 258: 121–126.
- Benscoter B. W. & Vitt D. H. (2008): Spatial patterns and temporal trajectories of the bog ground layer along a post-fire chronosequence. – *Ecosystems* 11: 1054–1064.
- Bergamini A., Peintinger M., Fakheran S., Moradi H., Schmid B. & Joshi J. (2009): Loss of habitat specialists despite conservation management in fen remnants 1995–2006. – *Perspectives In Plant Ecology, Evolution and Systematics* 11: 65–79.
- Bigal K. L., Ashmore M. R. & Headley A. D. (2008): Effects of air pollution from road transport on growth and physiology of six transplanted bryophyte species. – *Environmental Pollution* 156: 332–340.
- Boiko M. F. (2008): Checklist mokhopodibnykh Ukrainy [A Checklist of the Bryobionta of Ukraine]. – Ajlant, Kherson. [232 pp.]
- Botting R. S., Campbell J., Fredeen A. L. (2008): Contrasting arboreal and terrestrial macrolichen and bryophyte communities in old-growth sub-boreal spruce forests of central British Columbia. – *Bryologist* 111: 607–619.
- Bragazza L. (2008): A climatic threshold triggers the die-off of peat mosses during an extreme heat wave. – *Global Change Biology* 14: 2688–2695.
- Brugués M., Puche F., Cezón K. *Tortella bambergeri* (*Pottiaceae*) in the Iberian Peninsula, with an updated key to Iberian *Tortella*. – *Bryologist* 112: 164–168.
- Callaghan D. A. (2008): Scale dependency and area of occupancy: *Tortula freibergii* in north-west England. – *Journal of Bryology* 30: 279–282.
- Campioli M., Samson R., Michelsen A., Jonasson S., Baxter R. & Lemeur R. (2009): Nonvascular contribution to ecosystem NPP in a subarctic heath during early and late growing season. – *Plant Ecology* 202: 41–53.
- Cano M. J. (2008): Taxonomic revision of *Henediella* Paris (*Pottiaceae*, *Bryophyta*). – *Bryophytorum Bibliotheca* 64: 1–142.
- Cao T., Wang M., An L., Yu Y., Lou Y., Guo S., Zuo B., Liu Y., Wu J., Cao Y. & Zhu Z. (2009): Air quality for metals and sulfur in Shanghai, China, determined with moss bags. – *Environmental Pollution* 157: 1270–1278.
- Casas C., Brugués M., Cros R. M., Ruiz E. & Barrón A. (2009): Checklist of Mosses of the Spanish Central Pyrenees. – *Cryptogamie Bryologie* 30: 33–65.
- Cesa M., Azzalini G., De Toffol V., Fontanive M., Fumagalli F., Nimis P. L. & Riva G. (2009): Moss bags as indicators of trace element contamination in Pre-alpine streams. – *Plant Biosystems* 143: 173–180.
- Cevik U. & Celik N. (2009): Ecological half-life of ¹³⁷Cs in mosses and lichens in the Ordu province, Turkey by Cevik and Celik. – *Journal of Environmental Radioactivity* 100: 23–28.
- Clarke L. J., Ayre D. J. & Robinson S. A. (2009): Genetic structure of East Antarctic populations of the moss *Ceratodon purpureus*. – *Antarctic Science* 21: 51–58.
- Cleavitt N. L., Williams S. A. & Slack N. G. (2009): Relationship of bryophyte occurrence to rock type in upstate New York and coastal Maine. – *Northeastern Naturalist* 16: 67–84.
- Coskun M., Steinnes E., Coskun M. & Cayir A. (2009): Comparison of epigeic moss (*Hypnum cupressiforme*) and lichen (*Cladonia rangiformis*) as biomonitor species of atmospheric metal deposition. – *Bulletin of Environmental Contamination and Toxicology* 82: 1–5.
- Crandall-Stotler B., Stotler R. E. & Long D. (2009): Phylogeny and classification of the *Marchantiophyta*. – *Edinburgh Journal of Botany* 66: 155–198.
- Crawford M., Jesson L. K. & Garnock-Jones P. J. (2009): Correlated evolution of sexual system and life-history traits in mosses. – *Evolution* 63: 1129–1142.
- da Costa D. P. (2008): *Metzgeriaceae* (*Hepaticae*). – *Flora Neotropica Monograph* 102: 1–169.
- Dazy M., Masfarau J.-F. & Ferard J.-F. (2009): Induction of oxidative stress biomarkers associated with heavy metal stress in *Fontinalis antipyretica* Hedw. – *Chemosphere* 75: 297–302.
- Delgadillo C. M. (2009): Floristic corridors for moss distribution across the Neovolcanic Belt of Mexico. IV. The Toluca and Chalco corridors. – *Journal of Bryology* 31: 30–40.
- Demars B. O. L. & Edwards A. C. (2008): Tissue nutrient concentrations in aquatic macrophytes: comparison across biophysical zones, surface water habitats and plant life forms. – *Chemistry and Ecology* 24: 413–422.
